## Testimonials Student

As a student at full potential academy for 3 months in prep for Act I would definitely recommend to all parents and students out there looking for a tutoring group.

- *Pradeep Kumar Tiwari*

Full Potential is an excellent tutoring center. I took an SAT practice test at the tutoring center and taking it really helped me because it made me more familiar with the test and showed me the kind of questions that were going to be asked. Full Potential offers a great environment to work and to learn. If you are struggling in a certain subject or even SAT/ACT, I highly recommend full potential to improve your grades.

## Testimonials Parents

I would recommend Full Potential over and over again. My daughter needed to prep for a very important exam, and the whole team was amazing, from making sure the times worked for her tutoring, to helping her in areas they felt she needed work in, to even squeezing in one last tutoring session for her. With their help she really built the confidence to go into the test feeling like she will pass it!

- *Cristina Pulgarin*

I want to say thank you to Sam and Full Potential for helping my son with such challenging math and physics classes. The amount of effort in explaining the way that Matthew learns has paid off and he has so far received a B in his practice final exam. This is honestly a reputable company that offers excellent service. Highly recommend to all. Blessing!
